Re: United States Environmental Protection Agency (EPA) March 5, 2008,
Comprehensive Environmental Response, Compensation and Liability Act
(CERCLA) Unilateral Administrative Order (UAO), No. V-W-08-C-893 for
RRG/Clayton Chemical Co. Superfund Site (Sauget, IL)

Dear Mr. Turner:

Thank you for speaking with me yesterday about the above-referenced CERCLA matter (the "*RRG/Clayton Chemical Co. Superfund Matter*"). As we discussed, communications regarding the RRG/Clayton Chemical Co. Superfund Matter have been inadvertently directed to Chemline, Inc., even though Chemline, Inc. is not named as a Respondent in, and is not otherwise a party to, the RRG/Clayton Chemical Co. Superfund Matter.

Per our conversation, such communications should be directed to Steelcote Manufacturing Company/John Milner. We understand that the current contact information for John Milner/Steelcote Manufacturing Company is: 625 South Skinker #201, St. Louis, Missouri 63105. The unit number may be #202.

Please feel free to contact Ben Keller or me with questions or concerns.

Sincerely yours,

LATHROP & GAGE L.C.
